### PROFILE

I am Kushagra Himdan a patient, strategic and adaptable individual with strong work ethic and a passion for continuous learning. I excel at problem solving and thrive under challenge.

### SKILLS

#### Full stack Development

I am a full stack developer creating different stunning and user friendly websites.

#### Java

I have the knowledge of Java and the concept of OOPs. with understanding of its framework and libraries.

#### React

JS library which helps me create promising front end of websites.

#### Python

Python programmer with understanding of its libraries, and futuristic Artificial intelligence.

#### C / C++

I understand the C and C++ being the fastest of languages, and I like to code in them because of their low level programming advantage and the OOPS concept.

#### SQL

I use SQL and it helps me to manage my data of the project.

### EDUCATION
